

SUMMIT PLASTICS & TOOLING //

Fathom McHenry

ILLINOIS

Key Capabilities

- Domestic Injection Molding
- Injection Molding Prototypes
- Short-Run Molding
- Rapid Mold Changes & Repairs
- Prototype & Production Molds

Rapid US-Based Injection Molding

Fathom McHenry (formerly Summit Plastics & Tooling) utilizes state-of-the-art mold-making technologies to provide high-quality plastic injection mold design, precision mold-making and close-tolerance injection molding services for small-to-medium prototype injection molded projects. Fathom McHenry works with clients in the medical, packaging, consumer technology, automotive and electrical industries that require optimized productivity and overall lowest manufacturing cost.

Take Advantage of Additional Fathom Capabilities

Comprehensive capabilities for every stage of your product's lifecycle

- Additive Technologies (SLS, FDM, DMLS & more)
- Advanced Manufacturing like CNC, Metal Cutting, Injection Molding & Urethane Casting

Go from concept to prototype to manufacturing in ways not previously possible. Learn more on the next pages →

FATHOM[®]

DIGITAL MANUFACTURING. REIMAGINED.[™]

Advanced Prototyping & Manufacturing

Fathom provides advanced rapid prototyping and on-demand low volume production services. **We are creative problem solvers that deliver high efficiency outcomes. Every time.**

25+

Different Manufacturing Processes

50+

Years of Problem Solving Experience

12

Manufacturing Locations Across National Time Zones

7

Additive Technologies

24 hrs

Receive Custom Parts in as Soon as 24 Hours

450k+

Square Feet of Manufacturing Space

530+

Mills, Lathes, Presses, Press Brakes, Turret Punches & Additive Systems

90+

Industrial Grade/Large Format Additive Systems

Certified for your Specialized Projects

Ready for your high-quality, compliant projects.

ISO 9001:2015 Certified + AS9100 Rev. D Certified + ITAR Registered + NIST 800-171 Compliant + ISO 13485 Certified

Additive Prototyping & Manufacturing Services

PolyJet Technology

- Parts In As Soon As Same-Day
- 900+ Materials (From Rigid to Flexible)
- Multi-Material & Multi-Color Parts
- Simulate Overmolding
- 500,000 Vibrant Colors, including Pantone®
- Ideal for Fine Details & Smooth Surfaces

FDM Technology

- Parts In As Soon As Next-Day
- Parts in Real Production-Grade Thermoplastics
- High Durability, Excellent Mechanical, & Thermal Properties
- Fixtures & Tools, Functional Models, End-Use Parts

SLS Technology

- Parts In As Soon As 2 Days
- Nylon 12 and Nylon 12GF, Nylon 11 and Nylon 11 Carbon Filled, TPU Shore 88A
- Durable Production Grade Materials
- White / Off-White + Color Dye Options

MJF Technology

- Parts In As Soon As 2 Days
- Nylon 11 and Nylon 12 in Gray or Dyed Black
- Durable Production-Grade Parts
- Medium / High Resolution

SLA Technology

- Parts In As Soon As Next-Day
- High-Resolution & Complex Geometries
- Larger Aesthetic Models
- Durable, Excellent Mechanical & Thermal Properties

DMLS Technology

- Parts In As Soon As 3 Days
- Aluminum, Titanium, Cobalt Chrome, Nickel Alloy
- Inconel, Maraging & Stainless Steel
- Highly Complex Structures, Including Organic Surfaces
- Post Processing Machining & Finishing Capabilities

SMARTQUOTE[®]

Advanced Prototyping & Manufacturing Services

CNC Machining

- Parts In As Soon As 5 Days
- 3- & 5-Axis Milling & Turning
- Production Plastic & Metal Material Options
- Precision Swiss Screw Machining
- Sinker/Ram EDM Cutting
- High-Quality Surface Finishing
- Tolerance Accuracy Range of +/-0.001" to 0.005"

Urethane Casting

- Parts In As Soon As 7 Days
- Create Production-Quality Parts (Up to 200)
- Materials Mimic Production Thermoplastics (Including ABS-Like, WaterClear, UL94 V0-Rated, Heat Resistant, Polypropylene-Like, Various Rubber Hardnesses, etc.)

Rapid Tooling & Injection Molding

- International and Domestic Capabilities
- Production Tool In As Soon As 3 Weeks
- Prototype Tool In As Soon As 10 Days & 10K Parts in 14 Days
- Low-To-High Volume Molding Needs
- 30 Second Quotes Through ICOMold by Fathom Quoting Tool at ICOMold.com

Sheet Metal Cutting & Forming

- Parts In As Soon As 5 Days with Next-Day Expedite Option
- Laser & Waterjet Cutting
- Wire EDM Cutting
- Photochemical Machining / Chemical Etching
- Sheet Metal Bending, Forming, Stamping
- Hardware Installation / Assembly
- Finishing, Welding, Sanding, Powder Coating, Screen Printing, Heat Treating & Plating

Complex Assembly & Finishing

- Sanding, Priming, Painting & Assembly
- Stock Components & Custom Artwork
- Cleanroom Assembly Capabilities

Engineering & Design Support

- Additive Manufacturing Expertise
- Mechanical Concept Development
- Design for Manufacturing (Advanced & Additive)
- Industrial Design Support

Quality Assurance

- Climate Controlled Measurement Labs
- DCC CMM & Laser Scanning Capabilities
- Non-Contact Measurement
- First Article Inspection

Fathom's online platform provides designers and engineers with **quick & easy access to quotes and orders for prototyping and production parts.**

Accepted File Types

Additive Technologies // STP, STEP, IGES, SLDPRPT, 3DM, SAT, X_T, STL, OBJ
Advanced Technologies // STP, STEP, IGES, SLDPRPT, 3DM, SAT, X_T

Accelerate Your Time to Market

Fathom's advanced technologies and methods enhance and accelerate today's product development and production processes.

PROTOTYPING	→ LOW VOLUME PRODUCTION	→ PRODUCTION
Additive Manufacturing // FDM, PolyJet, SLS, SLA, MJF, DMLS	Additive Manufacturing // FDM, SLS, MJF, DMLS	Additive Manufacturing // SLS, DMLS
Metal Cutting & Forming // Laser Cutting, Press Brake Forming, Water Jet Cutting (Large & Micro), Photochemical Etching	Metal Cutting & Forming // Laser Cutting, Precision Forming & Stamping, Photochemical Etching, Water Jet Cutting (Large)	Metal Cutting & Forming // Laser Cutting, Precision Forming & Fully Automated Metal Stamping, Photochemical Etching
CNC Machining	CNC Machining	CNC Machining
Urethane Casting	Injection Molding & Urethane Casting	Injection Molding
